Connect with Strength.

HOOK AND LOOP

AMERICAS ASIA-PACIFIC EUROPE

The 100% Polyester Advantage...

DOT® Hook and Loop products feature 100% polyester construction that resists stretching, shrinking and fading while maintaining full closure strength in wet conditions – ideal for outdoor, marine, sporting goods and other uses where water, heat and chemical resistance are a must. Strong and flexible, they're a great fit for your design and functional requirements.

Compared to traditional nylon products, polyester offers:

- More cost-effective and practical solution for your production needs
- Superior strength, durability and resistance to stretching and shrinking
- Excellent resistance to a wide range of chemicals
- Better resistance to weather, heat and water with no loss of peel or closure strength
- Outstanding color stability in sunlight, with no fading or yellowing

Specialty Hook and Loop
For All Your Reclosable Applications...

- **Adhesive-Backed** – A quick and easy self-adhering solution with excellent holding strength on smooth surfaces. Available in two adhesive styles:
  - Rubber-Based: High-tack under normal temperatures (up to 104°F/40°C)
  - Acrylic-Based: Low-tack for pre-setting during the sewing process
- **High-Tenacity** – Ideal for industrial applications, this loop-side-only product has twice the tensile strength of conventional hook and loop, with less stretch for more stable retention of larger or heavier objects.
- **Anti-Static** – Made with a unique carbon-based electroconductive fiber for superior static electricity control and chemical resistance – ideal for transportation and protective apparel applications.
- **Heat-Resistant** – Features PPS (polyphenylene sulfide) fiber construction for excellent heat resistance.

The Dependable, Versatile Choice For Outdoor, Indoor and More...

For more than 100 years, the DOT® product line has earned a reputation for consistency, quality and dependability. Now, DOT Hook and Loop offers a versatile solution to meet the demands of many applications that require both strong closure and smooth opening, including:

- **Marine and Awning** – umbrella straps, boat windshields
- **Outdoor Furniture** – straps to secure cushions to chair and bench frames
- **Medical** – braces, splints, blood pressure cuffs
- **Sporting Goods** – pads, protective gear
- **Transportation** – removable mesh pockets and bags
- **Apparel** – shoes, coats, hats, gloves
- **And more!**

Customer-Centered Solutions
To Support Your Needs...

Combine high quality and performance with smart style and end-to-end support, and you get Scovill Fasteners. Our extensive range and deep knowledge ensures that you get the support your business deserves.

We are always ready to help our customers throughout the selection process and beyond. Our US-based global headquarters coordinates with our facilities around the world to provide partnership every step of the way.

We offer:

- **Product samples and readily available inventory** – to minimize lead times
- **End-to-end consultation and support** – to help you succeed from development through production
- **Product testing and quality control** – to ensure our products meet high standards for quality and safety
- **Global support** – available to assist you wherever you are, whenever you need us

PolyHold®

For Secure Closure In Demanding Conditions...

100% polyester PolyHold® Hook and Loop resists the stresses of weather, heat, water and chemicals without losing closure strength or color stability. It's the ideal choice for demanding conditions such as harsh weather, marine environments, sports and recreational activities, and medical applications – anywhere secure closure and simple adjustment is important.

- Soft texture for easier sewing than conventional hook and loop products
- Black and white standard colors; custom colors and color matching available upon request
- Resistant to stretching and shrinking
- Excellent color stability in sunlight – resists fading or yellowing

PART NO.	TAPE SIDE	ROLL WIDTH (in)	ROLL LENGTH (yd)	COLOR

UniHold™

All-In-One Tape For Banding and Organizing...

UniHold™ Hook and Loop has a unique ability to quickly and securely organize the world around you – from medical boots and blood pressure cuffs to loose pipes, spare tires and more. 100% polyester and water resistant, this self-engaging, all-in-one tape closes on itself for fast, flexible application, removal and reuse.

- Smooth surface with much less snag than conventional hook and loop products
- Black and white standard colors; custom colors and color matching available upon request
- Flexible, secure one-piece closure
- Water resistant
- Reduces the number of inventory items to manage
