| ■ Awnings | |

Customer-Centered Solutions Support Your Needs...

Scovill is always ready to help our customers through the selection process and beyond. Our US-based global headquarters coordinates with our facilities around the world to provide partnership every step of the way.

We offer:

- Testing, analysis and recommendations for choosing the right product
- Responsive field support for attaching machines, tooling and training
- High standards for quality control

Lasting Durability in Just the Right Finish...

Constructed of heavy-duty materials, DOT® Grommets and Washers are designed to provide reliable hole reinforcement. These high-quality grommets and washers conform to stringent commercial specifications. Scovill also offers a wide range of setting options to meet customers' unique requirements.

Available Finishes

All DOT® Grommets and Washers—except for Stainless Steel—are available in the following standard finishes: Brass, Nickel and Black. Custom finishes and sprayed enamel finishes are also available upon request along with custom color matching. Minimum order quantities are required for certain colors.

SHEET METAL GROMMETS AND WASHERS

- Made of durable, high-quality brass
- May be used interchangeably with Plain, Tooth or Neck Washers:
 - **Plain Washers** are used as basic reinforcement to provide support for the grommet setting
 - **Tooth Washers** provide a firmer, tighter grip, particularly when used on woven material
 - **Neck Washers** reinforce the hole in a barrel-to-barrel setting and facilitate automatic feed setting for high-volume production

SHEET METAL GROMMETS
