

SCOVILL

Stainless Steel Grommets and Washers

Features and Benefits:

- Made of tough, non-porous SAE 304 Stainless Steel
 - Lighter, yet stronger construction than brass options
 - Cables and ropes will not wear through and it will not go "out of round" under tension
 - Superior resistance to rust, stains and corrosion
 - Offers UV and scratch resistance, and will not pit
 - Best suited for Marine and other adverse environments.
- Can be used in Medical applications for heavy wash needs.
