

SCOVILL

DOT® Semi-Automatic Foot Press Model 89-M200

Compatible Fasteners include:

- Durable™
- Lift-the-DOT®
- Baby Durable™
- Common Sense®
- Pull-the-DOT®
- Grommets and Washers

Features and Benefits:

- **Target light** helps to locate the attachment for accurate and consistent fastener placement. The brightness can be adjusted to suit the operator and application.
- **Safety rings** prevent the machine from cycling if fingers are in the attaching area.
- **Compensator unit** allows fasteners to be attached to different thicknesses within a specified range on the same item without having to adjust the setting pressure.
- **Foot pedal** operation keeps both hands free. The foot pedal must be released before another attachment can be made, preventing double tripping.
- **Setting pressure** is easily and quickly adjusted when changing tools, which allows for a variety of fasteners to be set with this one piece of equipment.
- **Dies** can be interchanged and used with Scovill kick press and bench-mounted machines.
