Features and Benefits:

The DOT® M380E Bench Mount Hand Press is designed to attach a wide variety of metal and plastic fasteners. Constructed of cast iron and steel, this attaching machine is an all-around workhorse.

- **Interchangeable Dies** allow for multiple applications, increasing the value of the machine
- **Large Surface Area** of the base provides a stable platform and can easily be mounted on a sturdy table or work bench
- **Handle Stop Screw** and shims help adjust the setting pressure to the ideal compression for a secure attachment
- **Ergonomic Handle** provides comfort and added leverage
