

MORITO SCOVILL

DOT® Medical Studs

Features and Benefits:

DOT® Medical Studs are a critical component to the medical industry's diagnostic equipment. Scovill manufactures a line of universal studs that are dependable and conductive. Our custom stamping and manufacturing capabilities allow us to produce studs within your custom tolerance standards.

- Compatibility between sockets and studs provides your product with the perfect pairing for both design and functionality.
- Available materials include 304 Stainless Steel, 316L Stainless Steel and Nickel Plated Brass.
