

MORITO SCOVILL

Stainless Steel Grommets and Washers

Features and Benefits:

- Made of tough, non-porous SAE 304 Stainless Steel
- Lighter, yet stronger construction than brass options
- Cables and ropes will not wear through and will not go "out of round" under tension
- Superior resistance to rust, stains and corrosion
- Offers UV and scratch resistance and will not pit
- Best suited for Marine and other adverse environments
- Can be used in Medical applications for heavy wash needs
